## Water Gardens

Water gardens transform an outdoor living space into a beautiful paradise where you can relax, unwind, and enjoy quality time with family and friends. Water features become the focal point of any garden with their melodious tunes and natural ability to attract a variety of birds and butterflies.

Whether you tuck a decorative fountain near the entrance of your home or create a backyard habitat with an ecosystem pond and waterfall, you'll find each day enhanced when you waterscape your landscape. Whether you have an expansive lawn or a small balcony, Harmony Gardens can help you find a water feature to suit your lifestyle and budget.

## Design

Landscaping isn't just the addition of a flower bed here and a water feature there - its a thought-out masterpiece that combines color, texture, space and most importantly, your personality and desires.

From small corners to expansive acres, we strive to make the best use of your available space.

Call us today and begin formulating the yard of your dreams!

Lighting Designers, Jim Quinn & Emmelly Tribble

**Working on the Newcomb home was a real honor.**

*It gave us an excellent opportunity to showcase our ability in designing a total lighting solution.*

*Emmelly personally took on the account and assisted in everything from choosing the proper trim for the cans to selecting the proper bulb to accentuate the subject at hand.*

*We partner with some of the finest builders and can handle any lighting need - great or small!*

- Jim Quinn
